

## Case dossier (30-minute deep read)

**One-file PDF:** CASE-DOSSIER.pdf (export of this page; for counsel pickup).

**Posture (May 12, 2026):** 802 (CGC-25-631802) is the live trial-court front (May 29, 2026 consolidated hearing, Dept. 302 — see 03-CASE-CGC-25-631802/INDEX.md); 801 (CGC-25-631801) is in appellate-preservation posture (see 01-APPEAL/EQUITY-PRESERVATION-LANE/); A173827 is in active appellate briefing.

**Not legal advice.** This page is a **table of contents** to material already on this site. Open the links; do not treat this page as a substitute for the primary PDFs.

---

### 1. Factual spine (five anchors)

Reproduced in full prose in Section 3 of CROSS-CASE-NARRATIVE-LEGAL-THEORY-AND-LEVERAGE.md: 911 audio; BWC + CAD; Vehicle Code turning-duty statutes; **April 16, 2025** Day-7 “provided by Dolan” colloquy; and CSAA’s funding and direction of the defense.

---

### 2. The two signature contradictions

- “**Concluded / careful review**” (**2021 letter**) vs “**not produced / news to me**” (**2025 pretrial**): developed in Section 5 of the same cross-case narrative, and in CONTRADICTION-LETTER.md.
  - **Dolan / chain-of-custody**: Day-7 admission block-quoted in CROSS-CASE-LOGIC-TREE-AND-CSAA-WORST-CASE-AND-ANALYSIS.md and analyzed in 08-LEGAL-ANALYSIS/FATAL-PROOF-NAVARATNASINGHAM-DOLAN-ADMISSION-EXTRINSIC-FRAUD-AND-RELIANCE-ON-COURT.md.
- 

### 3. Cross-forum reading method

From the homepage: keep **appeal**, **631801 equity**, **631802 UCL**, and **594102 trial** materials **separate**; verify quoted lines in **reporter PDFs**; verify insurer documents in **631802** exhibits. See the “**Cross-forum reading method**” paragraph in README.md (academic section, immediately after the four-forum summary).

---

### 4. Element → source (pleaded / argued)

The consolidated **element map** (negligence, appeal clusters, 631801, 631802, audio) is maintained at **evidence-tree/INDEX.md**.

For verbatim cross-walks and court-reliance import, use 08-LEGAL-ANALYSIS/COURT-RELIANCE-FRAUD-ON-COURT.md and the integrated discrepancy file 08-LEGAL-ANALYSIS/DISCREPANCY-INTEGRATED-ANALYSIS.md.

---

## 5. Four-proceeding map (same figure as homepage)

```
flowchart TB
    subgraph trial ["CGC-21-594102 trial"]
        TR["Reporter plus clerk PDFs"]
    end
    subgraph live ["Live trial-court front"]
        UC["UCL 631802 (May 29, 2026)"]
    end
    subgraph appellate ["Appellate lane"]
        AP["Appeal A173827 briefs"]
        EQ["Equity 631801 (appellate-preservation)"]
    end
    TR --> AP
    TR --> EQ
    TR --> UC
    EQ -. -> AP
```

---

## 6. What to verify first (primary PDFs, 802 live front first)

**Active motion practice (May 29, 2026 consolidated hearing):** 03-CASE-CGC-25-631802/INDEX.md — all pending 802 motions, Dept. 302.

**Appellate-preservation lane (post-May-12 801 materials):** 01-APPEAL/EQUITY-PRESERVATION-LANE/README.md.
